

### **WRITING: WHAT WOULD YOU DO?**

You are an emergency worker that has just been called to the scene of an accident. When you arrive you see that the car belongs to your wife / husband. Fearing the worst you rush over to see (s)he is trapped in her / his car with another (wo)man. (S)he sees you and although barely conscious, (s)he manages to mouth the words "I'm sorry"... You don't understand, but her / his look answers your question. The (wo)man next to her / him is her / his lover. You see your wife / husband is seriously hurt but (s)he'll probably survive. You look at the seat next to her / him and see her / his lover. (S)he's bleeding heavily from a wound to the neck and will probably die if you don't help her / him. **Who would you choose to work on? Use as many modal verbs as possible.**
